Electrification and the future of decentralized electricity supply

Dr. Fereidoon Sioshansi is President of Menlo Energy Economics, a consulting firm based in San Francisco, California, with over 35 years of experience in the electric power sector. He advises clients on strategies to respond to the rapid transformation of the energy sector including utilities, energy intensive industry, innovators, start-ups and companies engaged in electricity delivery supply chain, regulators and policy makers. His professional experience includes working at Southern California Edison Co. (SCE), Electric Power Research Institute (EPRI), NERA, and Global Energy Decisions. He has edited/co-edited 15 books published by Academic Press on the broad range of topics on energy economics and business.
